A smartphone screen showing a product page for Tylenol Extra Strength Caplets. The phone has a black case and is set against a white background. The screen displays three boxes of Tylenol Extra Strength Caplets at the top. Below them is the product title: "Tylenol Extra Strength Caplets with 500 mg Acetaminophen". A detailed description follows: "Tylenol Extra Strength caplets help reduce fever and provide temporary relief of minor aches and pains. From the #1 doctor-recommended brand of pain reliever, each caplet contains 500 mg of acetaminophen for effective, extra strength pain relief. Both a fever reducer and pain reliever, it relieves minor aches and pains due to headache, backache, toothache, minor pain of arthritis, ...". A "See more..." link is visible below the description. The next section is titled "Reviews" with a horizontal line. It features a review: "This is great pain killer" followed by "Since I cannot use any painkiller that contain ibuprofen and panadol doesn't seem to work. This pain killer is effective for me." This review is accompanied by a five-star rating icon. Another review is listed: "Conveniently Easy to Swallow" followed by "These are so easy to take on the go, even without water! You never know when a headache or injury may occur and having these small sugar coated pain pills makes all the difference when swallowing them! Highly recommend having these on hand." A green "Buy now!" button with a shopping cart icon is located at the bottom of the screen.

## Reviews

This is great pain killer

Since I cannot use any painkiller that contain ibuprofen and panadol doesn't seem to work. This pain killer is effective for me.

★★★★★

Conveniently Easy to Swallow

These are so easy to take on the go, even without water! You never know when a headache or injury may occur and having these small sugar coated pain pills makes all the difference when swallowing them! Highly recommend having these on hand.

#### Comment:

doc first put me on Hawthorne and beet root powder which helped some but BP numbers were still too high most of the time. He then put me on Lisinopril which caused chronic low level coughing. He switched me to Valsartan and so far after 6 months now no problems and no coughing. IMO valsartan is a great drug. I wish the beet root and Hawthorne would have worked as i would rather not be on a drug ... [Show Full Comment](#)
